Findings & remediation

- Discovered 4 new third-party cookies set by an embedded YouTube player on /blog/* — auto-categorized as 'Advertising' and blocked until consent.
- Mobile banner reject-rate (22.1%) higher than desktop (16.0%); recommend testing alternate mobile copy.
- Cookie policy auto-regenerated 3 times during Q1 to reflect tracker changes — no manual intervention required.

This is a sample report. Real reports include per-visitor consent records, banner version diffs, and a signed PDF for regulators.
